PROFILE

Cairo-based science journalist and content leader. I write on health, environment and AI for Nature Middle East, SciDev.Net and Al Jazeera Net, and I lead creative, content and AI-application work at Consult Masar, a healthcare brand-strategy consultancy. I run Insan Science, an Arabic, AI-powered science communication platform. Pharmacist by training; science journalist since 2021.

EXPERIENCE

Creative, Content & AI Application Director · Consult Masar — Present
Co-founder. Leads content, creative direction and AI-built applications for healthcare and science brands.

Founder · Insan Science — Present
Arabic, human-centred science communication platform built as an AI-powered project.

Freelance science journalist · Nature Middle East, SciDev.Net, Al Jazeera Net — 2021 – Present
Features, news and in-depth investigations on health, environment, AI and Gaza-related science, in Arabic and English.

Content Manager · Be Group & Medicazone — Promoted 2024
Previously SEO Content Team Leader at Be Group (from 2021); led and trained SEO content teams and delivered final content.

Head of Content · Digi Doctor — 2020
Set client content strategy and produced high-quality medical content.

Community Pharmacist · Zekry Pharmacies — 2020

Content Creator → Senior Content Creator → Creative Operations Officer · Upper Medic — 2017 – 2020
Started as a junior medical content creator; directed creative operations from brief to publication.

Community Pharmacist, then Pharmacy Manager · Dr. Ahmad Amer Pharmacy — 2015 – 2017
